SUMMARY

Computer Engineering graduate currently pursuing a Master's in AI and Human-Centered Computing. Possesses a versatile technical background spanning mobile/web development, Unreal Engine, and advanced data management. specialized in virtualization, cloud infrastructure, and cybersecurity. A proactive problem-solver with strong leadership and teamwork capabilities demonstrated across a variety of diverse and formative environments

TECHNICAL SKILLS – GAINED THROUGH HANDS-ON PROJECTS SHOWCASED ON GITHUB

Algorithm Design and Implementation	Virtualization and Cloud Computing	Object-Oriented Programming
Advanced Data Management	Mobile App Development	Full-Stack Web Development
Embedded Systems Programming	Game Development	Version Control with Git & GitHub

PROFESSIONAL EXPERIENCE

Python programming instructor | Feb 2025 – April 2025

- High School (Scientific, Classical, and Linguistic) – Liceo Da Vigo Nicoloso Rapallo
- Teaching materials and exercises available on GitHub: [python_programming_course](#)

Digital transformaion & technical support | Jan 2024 – Present

- AutoCAD design and 3D modeling for corporate projects
- Manual mechanical processes and PLC development
- Digital transformation management

Volleyball coach | Sep 2021 – June 2026

- White, Green, Red, Under 12, Under 15 and Under 16 volleyball coach for Volley Uscio (2024 – Present)
- White, Green, Red, Under 13 volleyball coach for Pro Recco Volleyball (2021 – 2022)
- Summer camp organizer, involving training sessions, team-building activities, and tournaments.

Awards and side activities

- 1st place Cyber Security Hackathon in Genoa (Hack4Ge)
- UniGe Voglio fare il manager (2024)

EDUCATION

University of Genoa | 2024 – Present

Master degree of Computer Engineering: Artificial Intelligence and Human-Centered Computing

- Thesis Project in collaboration with Leonardo S.p.A**

Engineered an ontology-based automated Knowledge Graph reconstruction to model enterprise IT infrastructures from discovery data. The framework performs data parsing, knowledge fusion, and automated fact inference and it is designed to support attack path analysis, vulnerability assessment, disaster recovery, and cyber range virtualization.

University of Genoa | 2021 – 2024

Bachelor of Computer Engineering

- 110/110 cum laude (GPA: 3.9)

Da Vigo Nicoloso High School | 2016 – 2021

Scientific high school diploma

- 98/100
